### **Edirol Introduces the UA-5 USB Digital Audio Capture**

Bellingham, WA. --- Edirol Corporation introduces the UA-5 USB Digital Audio Capture device. This half-rack unit allows for high quality digital conversion of analog audio signals and transfer of digital data to your computer to be recorded. USB connection to computer is quick and easy. Audio resolution up to 24-bit/96kHz is possible. The UA-5 is a two channel device with the following connector choices: 1. L/R RCA input-output, 2. Optical/coaxial S/P DIF input-output, 3. 2 XLR plus 2 \_ inputs-outputs, 4. Discreet front panel inputs for either guitar or microphone — 48v phantom power for micWorks with most popular audio recording software for both Mac and Windows platform. The UA-5 is compatible with ASIO 2.0 (WIN/MAC), MME (WIN) and Sound Manager (MAC).

Edirol products are distributed exclusively in North America by ThinkWare.
